## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 24 July 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3-8 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 17, as amended, each recite "a plurality of oxidizable semiconductor layers, wherein each of said plurality of oxidizable semiconductor layer is oxidized . . . ." It is not clear how a semiconductor layer can be both "oxidizable" and "oxidized" at the same time. Examiner understands "oxidizable" to mean "capable of being oxidized." Examiner understands "oxidized" to mean "already oxidized." A material that is already oxidized is no longer capable of being oxidized, because it no longer has the capacity to enter into a chemical reaction with oxygen. For example, a metal such as aluminum is oxidizable, because it can enter into a chemical reaction with oxygen, to form aluminum oxide. Aluminum oxide is *not* oxidizable, because it does not enter into a chemical reaction with oxygen. The claim language requiring a single semiconductor layer to have both properties simultaneously is unclear, and does not appear to correspond to any teaching disclosed in the specification. The claims appear to be attempting to claim an intermediate structure and a final structure at the same time.

***Conclusion***

Applicant's arguments with respect to the pending claims have been considered but are moot in view of the new ground(s) of rejection. As noted above, it is not clear whether the claim is drawn to an intermediate structure, prior to oxidation, or to a final structure, after oxidation.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
